## Upcoming Event

### **HIV Insights: A Comprehensive Overview - HIV transmission, pathogenesis, screening, and diagnosis**

Join KYP and Dr. Anupama Raghuram, MD for a comprehensive virtual event designed to enhance your knowledge of HIV prevention, treatment, and management.

This three-day series, led by Dr. Anu Raghuram, will provide evidence-based insights into the complexities of HIV, offering actionable strategies for healthcare professionals to improve outcomes and mitigate risks. This is a no cost event but registration is required. FREE CE credits available.

**Session 1: HIV transmission, pathogenesis, screening, and**

### **Did you know?**

The Kentucky Infection Prevention Training Center has released its 2025 Learning Needs Assessment!

Last year, the 2024 assessment allowed us to tailor our educational offerings to meet the specific needs and interests of our learners, resulting in more impactful and relevant training sessions.

Your input is invaluable—please take a few moments to complete the 2025 Learning Needs Assessment to help us continue delivering the up-to-date, learner-focused education you want most.

Practice makes perfect! Check out the highlights from our Simulation Practice Day at the Kentucky Infection Prevention Training Center!

We're thrilled to roll out new simulations inspired by the incredible education our team received at CHEST training—collaborating with environmental services colleagues to raise the bar in infection prevention.

Stay tuned for more updates as we continue innovating and improving together!
